MAKE NOTICE.

E. & J. MOULTON & CO. would inform those who are indebted to them by note or account, that for the future they intend to change their mode of doing business by selling less on credit and more for cash and better and being very desirous of settling up their demands, they most earnestly request all those indebted to call and adjust their account without delay. To those who have not the money we would say bring what you may have to pay with, COUNTRY PRODUCE, LUMBER, or almost any kind of MERCHANDISE will be received in payment. To those who have been unfortunate and are unable to pay, we would say come and see us, and if you cannot pay all see what you can do and receive our demand satisfied; but at all events be sure and call without delay, for we should much regret to be obliged to send an unwelcome visitor to enforce payment, in consequence of an unwillingness or want of effort on the part of the debtor to pay his debts. HEADACHE.

DR. E. SPOHN, a German physician of much note, having devoted his attention for some years to the cure and removal of the causes of the NERVOUS AND SICK HEADACHE, has the satisfaction to make known, that he has a remedy which by removing the causes cures effectually and permanently this distressing complaint. There are many families who have considered Sick Headache a constitutional incurable family complaint. Dr. S. assures them that they are mistaken, and laboring under distress which they might not only alleviate, but eradicate by the use of his remedy.

It is the result of scientific research, and is entirely of a different character from advertised patent medicines, and is not unpleasant to the taste.

Health and Strength!

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS,

ARE the only sure remedy for Dyspepsia and Jaundice that has ever been discovered and their general use for 22 years, with recommendations from the most eminent of the medical faculty, and editorial notices from the Boston Morning Post, Boston Daily Mail, Plymouth Memorial, Amoskeag Representative, Barnstable Patriot, Essex Banner, Haverhill Gazette, Lowell Patriot, Bunker Hill Aurora, Charlestown, Portsmouth Gazette, N. H., Dover Gazette, N. H., Northern Star, R. Island, Lincoln Telegraph, Me., New York Evening Signal, &c., must assure the afflicted that they possess wonderful merit.

THEY GIVE LIFE, ELASTICITY AND VIGOR to the viscera, promote the peristaltic action, cleanse the stomach and bowels from unhealthy accumulations, and purify and enliven the blood in the most thorough and effectual manner.

They are the most certain remedy for all those prevalent diseases called Dyspepsia, Jaundice, Liver Complaints, Heartburn, Dizziness, Headache, Wandering or settled Pains, Sinking Faintness, Sour Stomach, Loss of Appetite, Weakness of the Limbs, Nervous Debility, [illegible] by an unhealthy state of the stomach and bowels.

They are the unrivalled and efficacious compound of a

REGULAR PHYSICIAN

and Graduate of the

NEW-HAMPSHIRE MEDICAL COLLEGE,

who has made the study of Medicine his profession.

Being composed entirely of vegetables, they are of such a nature that they may be taken for any length of time by invalids of any age, without injuring the system or exposing it to take cold.

BEWARE OF PEDLARS!!

The genuine article cannot be obtained of them on any pretence whatever.

I NEVER EMPLOY THEM,

NOR ALLOW THEM TO SELL MY MEDICINES.

And all Bitters, put up in phials and small round bottles, purporting to be mine,

ARE RANK COUNTERFEITS.

As some are base enough to fill the empty bottles with their stuff, and thus deceive the unwary, and some have attempted an imitation of my Bitters in papers.

BE CAREFUL OF WHOM YOU PURCHASE!

In consequence of these attempts at imposition, I have been at great expense in having new directions and wrappers, and in future the Bitters in papers will be done up in a different style. See that the envelope has on it my name in full, "entered according to act of Congress, in the year 1840, by S. O. Richardson, M. D., in the Clerk's Office of the District Court of Massachusetts;" and on the other side, "Established at South Reading, County of Middlesex, Massachusetts." The border around the inside directions, (which are printed on white tissue paper,) is so curiously engraved that the words "Dr. S. O. Richardson's Sherry Wine Bitters" present themselves in a thousand different forms. As a copy right has been granted me,

ALL INFRINGEMENTS WILL BE SEVERELY DEALT WITH according to law. The bottles are nearly ready to be issued in the same style.

All Bitters prepared by me have a fac-simile of my signature on the outer envelope,

TO COUNTERFEIT WHICH IS FORGERY.

AS YOU VALUE HEALTH, BE CAREFUL!

Orders from Agents, merchants, traders, druggists, apothecaries and dealers in medicines, will be punctually attended to, and sent to any part of the country, safely packed in boxes.

A liberal discount will be allowed on the sale.

THE HAIR! THE HAIR!!

NO better evidence is wanting to allow the superiority of the Genuine Buffalo Oil, over other preparations, than that a number of Druggists are endeavoring to imitate it and forcing their miserable imitations on the public, for genuine. Read advertisement. Beware of Pedlars.

Genuine Buffalo Oil is fast taking place of all other articles to promote the growth, soften and beautify the Hair; its use gives it a softness that no other article does, and causes it to curl beautifully by free use it will darken and give the hair a satin gloss, it is highly perfumed and gives perfect satisfaction to all who have given it a trial. You will observe the signature of the proprietor, 'William Brown,' also 'Buffalo Oil,' imprinted on the bottle. In consequence of a counterfeit which has recently appeared and is now for sale, I have been persuaded to obtain a new label engraved on copper, for which I have secured a copy-right, entered according to an act of Congress in the Clerk Office of the District Court of Massachusetts. Any infringement will be dealt with according to law. For sale by

THE ORIGINAL AND GENUINE BALSAM OF LIVERWORT, and the most popular remedy for Pulmonary Complaints. Price 50 cts a bottle. the true, original and genuine Balsam of Liverwort, that has now been in use in Boston, N. York and Philadelphia, for the past thirteen years. It is the most popular remedy now in extensive use for the cure of Coughs, Colds, and all Pulmonary Complaints, Whooping Cough, Phthisic, Sour Stomach, Pain in the Side and all Diseases of the Lungs, Liver Complaint, &c. For genuine, call for Mrs. M. N. Gardner's Balsam of Liverwort, and observe the signature of the proprietor, WM BROWN, Chemist, 481 Washington st., Boston, on the outside wrapper. As a further security against counterfeits, I have taken out a copy right of the outside direction, entered according to act of Congress, in the Clerk's Office of the District of Massachusetts, in the year 1840. Any infringement will be dealt with as the law directs. It is purely a vegetable compound, and is now recommended by many of our first physicians. See certificates accompanying directions. Its superiority over all other preparations is now fully established it needs only a trial.

NEW AND IMPORTANT DISCOVERY.

DR. PHELPS' COMPOUND

TOMATO PILLS,

[EXTIRELY VEGETABLE.]

A New and Invaluable Medicine for all Diseases arising from Impurities of the Blood, Morbid Secretions of the Liver and Stomach; also, a

Substitute for Calomel;

as a Cathartic in Fevers and all Billious Affections

THESE popular Pills being a combination of a newly discovered Alkaline substance, extracted from the TOMATO PLANT, with other vegetable substances which have been found to modify and diffuse its effects, are believed to be the best Alterative and Cathartic Medicine ever discovered. They have been abundantly and successfully tried, and have received universal application for Scrofula, Dyspepsia, Jaundice, Billious Diseases, Gravel, Rheumatism, Coughs, Colds, Influenza, Catarrh, Nervous Diseases, Acid Stomachs, Glandular Swellings of all kinds, Costiveness, Cholic, Headache, &c.

They are an antidote to Contagious and Epidemic diseases; prevent the formation of Billious and Liver affections Fever and Ague, &c, in those who reside in hot climates, and low and marshy countries, and are the best Cathartic that can be used for those localities. Seamen will find them an infallible remedy for the Scurvy; and Travellers, the best medicine they can use to counteract the dangers of exposure in unhealthy climates. For ordinary Family Physic, they are universally approved, as the best ever offered

These Pills have a powerful and salutary operation upon the Glandular System, removing all obstructions from the Gland, wherever situated, Scirrosities and Scrofulous Taints in all their forms, and if persevered in, no case of Scrofula, however severe, can resist its influence. It is in their operation on the Glandular System, that their effects are so peculiar and potent, and so nearly resemble that of Calomel. In fact, the Tomatoe has all the Alterative Deobstruent and Cathartic properties of Calomel, without ever producing unpleasant or injurious effects under any circumstances, either from exposure to cold or wet; on the contrary, the Compound Tomato Pills are the best remedy ever known to counteract the effects of Mercury, completely eradicating every particle of it from the system and renovating the constitution broken down by its use; which it does by correcting the state of the blood, and through that, correcting the morbid secretions of the glands, and restoring them to healthy and their own proper action. Its effect are analogous to Sarsaparilla and Blood Root, and in its combined action in the ingredients composing the Pills, it exerts a universal action peculiar to itself.

The peculiar virtues of the Tomato Plant, have for a long time attracted the attention of the Medical profession and the Public, and lively interest has recently been directed to the future development of its active powers, and its Antibilious and Alterative qualities; which the proprietor is now happy in being able to gratify, and presents his Pills to the Public, with the full confidence of their being the most safe and valuable remedy ever discovered—adapted to all cases where nature is disturbed, and when any of the functions do not perform their natural or healthy action.

Numerous certificates of cures from those who have taken them, and the testimony of several Physicians who have prescribed them, all concur to corroborate this opinion. The rapidly increasing demand for, and the universal approbation bestowed upon them, is an additional evidence of their merits and usefulness.

In presenting this article to the public, the Proprietor was induced by the hope that a medicine prepared with much care, and first regard to the Chemical and Therapeutic properties of its several ingredients, should take the place of the thousand and one irresponsible nostrums of the present day, with which the country is deluged—and from the favor already bestowed upon them by physicians and others, he feels justified in expecting this result.

Often have the cures perfored by this medicine been the subject of editorial comment, in various newspapers and journals, and may with truth be asserted, that no medicine of a kind has ever received testimonials of greater commendation than are attached to this.

Females from forty to fifty years of age will find them a powerful assistant to nature, in the important change in the functions of the system, removing all liabilities to Cancers, glandular swellings, &c., and assisting to establish a new action in the animal economy which nature often fails to do. None should avoid a free and continued use of them, if they wish to escape a long train of incurable maladies. For this purpose one should be taken every night and morning, and continued as long as any unpleasant symptoms remain.

For that congested and danged state of the system which occurs in the commencement of Spring and Summer, these Pills are particularly applicable, in preventing Rheumatism, Coughs, congestion of the lungs, &c., and have prolonged many a life that otherwise would have been a sacrifice to the changes of the season.

Those persons liable to sore throats, swelling of the glands, coughs, and other symptoms indicating Scorofula or Consumption should take warning in season, and embrace a remedy, which, while it is searching out and eradicating disease, makes no deductions from the vital powers of the system.

As a Dietetic or Dinner Pill one taken half an hour after dinner, will sufficiently stimulate the digestive powers of the stomach to healthy and invigorated action, and they are found greatly serviceable for those who indulge in longdinners, or late suppers, or immoderately in deserts or fruit.

For a full account of this interesting discovery, testimonials, mode operation, &c., see pamphlets, in the hands of those who sell these Pills.

*** Enquire for PHELPS' TOMATO PILLS, and be particular to observe that the label is signed G. R. PHELPS, M. D. Price 37 1-2 cents, with full directions accompanying each Box.

From the Boston Morning Post.

New Medicine. An Alkaline principle called Tomatine has been discovered in the Solanum class of plants, particularly in the tomato, which promises to be of peculiar service in Lung Affections, Scrofula, and Glandular obstructions, particularly of the Liver also an antidote to Mercury. It is embodied in the Compound Tomato Pills, which are truly worthy of a trial.

From the Post & Democrat.

PILLS. Unlike the numerous speculations of the day, there is one medicine which deserves the popularity and patronage it receiving. We allude to Dr Phelps' Compound Tomato Pills. Judging from the patronage they are receiving from the Medical Faculty, and the approbation of those who have used them, we should expect they would supercede all others in use, as a family medicine. Being introduced by a respectable and practical member of the Medical profession, whose character in this vicinity is a sufficient guarantee for the character of his medicine, we are enabled thus confidently to speak of it, and fully believe it is entitled to the confidence of the community.

From the Y. Transcript.

COMPOUND TOMATO PILLS.

Dr. Phelps, of Hartford, has brought into success, what is a most invaluable medicine in the Pill form, the chief component which is derived from the healthy and pleasant vegetable, the Tomato. As this plant is known to possess medicinal virtues of a high order, as well as a large amount of nutriment, so the medicines into which it is compounded, is known to be powerfully available as a curative remedy in morbid secretions of the Liver and Stomach, impurities of the blood, and diseases of a billious type generally. It is an excellent substitute for calomel, as an anti-billious and cathartic medicine without its injurious properties, and has been found extremely efficacious in the cure of a long catalogue of diseases. Having adventured upon the use of this medicine ourselves, we cordially recommend it to others.

DR. SEARS' UNIVERSAL SANGUINARIAN---OR

BLOOD-ROOT PILLS.

THE pretence that any medicine is nearly an "infallible cure" for all diseases "that flesh is heir to," whatever their character, is a flagrant imposition upon the public confidence, and a most wicked outrage upon the generous sympathy that suffering humanity justly demands of us. Yet the very frequency and boldness of these impious frauds so eminently cruel to the unfortunate, furnish solid ground for preserving the public a remedy that may be intelligently appreciated and relied upon. That powerful medicinal agent, the Blood Root, is the basis of the Universal Sanguinarian Pills, and all the materials are drawn from the Vegetable Kingdom the grand source of support to animal existence. But in the combination, the different ingredients are so blended and modified as to give the compound a remarkable advantage over the simples, and it is believed over all other medicines. When it is considered that nearly all diseases, chronic and acute, are connected with a disordered action of the stomach and bowels, and that in most instances, this is superinduced by disorder of the Bile, or Gall, which is the natural physic of the system, and when it is farther considered that these Pills act with singular power upon these many organs, and through them upon the blood and entire physical economy, sober reason must justify the assertion, that this valuable discovery furnishes a remedy of rare efficiency in all curable cases of disease; and this deduction of reason is abundantly corroborated by experience. This medicine harmonizes with the laws of life, inspires and strengthens nature, and works its wonders, by generously cheering her on to a triumphant conflict with the obtrusive agents of disease. It is offered for general use, and as a safe and most valuable family medicine. Sale, not because it does nothing, (like many contemptible nostrums of newspaper celebrity, which by occupying the place of efficient remedies, are often fatal) but safe, because it aids and co-operates with nature, instead of setting her aside and violently attempting to perform her work by dangerous foreign agency.

COPY OF CERTAIN RESOLVES PASSED BY THE LEGISLATURE OF MAINE IN THE YEAR 1841.

STATE OF MAINE.

RESOLVES for the appointment of a Board of Commissioners to settle the claims between certain individuals and the State.

RESOLVED, That the Justices of the District Courts in this State be appointed Commissioners (and in the event of a vacancy in the Board from any cause, the Governor, with the advice and consent of Council, shall forthwith proceed to fill the same) whose duty it shall be, on application made within one year from the passage of these Resolves of any person indebted to the State for the purchase of lands sold since the first day of January, in the year of our Lord one thousand eight hundred and thirty four, or who have become assignee to any such purchaser, and having an equitable claim against the State, praying to be relieved from the payment of notes due to the State, and from obligation to perform certain settling duties, either wholly or in part, and asking for a conveyance of the land originally contracted to be sold, either wholly or in part, to proceed and hear and examine, on oath, or affirmation, every question and all facts relative to said applications. And said Commissioners are hereby empowered, after a full hearing and examination of such cases, to make a written report to the Land Agent, directing him to settle and adjust said claims in such way and manner and upon such terms as to them shall seem equitable, just and expedient; and said Commissioners may further direct such costs to be paid by said applicants, on account of expenses incurred by the State as to them shall seem reasonable and proper, to be paid before the execution by the Land Agent of the award.

Resolved, That each applicant shall make out and file with the Land Agent, as soon as may be, brief statements of his case, one copy of which shall be forwarded by the Land Agent to each of the Commissioners, and one to the Attorney General.

Resolved, That all documents and written evidence produced before said Commissioners shall be deposited in the Land Office.

Resolved, That the Land Agent be and hereby is authorized, upon the report made to him in writing by said Commissioners or a majority of them, to cancel and surrender any notes, securities, or obligations in his hands, and to discharge mortgages, give releases, and make and execute conveyances, in such way and manner, and upon such conditions only as shall be prescribed in the report of said Commissioners.

Resolved, That the Governor, with the advice of Council, is hereby authorized to audit the accounts of said Commissioners, and to allow them such compensation for their services as to them shall appear reasonable and proper; and the Land Agent is hereby authorized to pay said Commissioners the amount due them, allowed as aforesaid by the Governor and Council.

Resolved, That said Commissioners shall give public notice of the time and place of their first meeting under this Resolve, three months prior to said meeting, by publishing a notice thereof three weeks successively in the State newspaper, and in such other public newspapers as they may think proper; and it is hereby made the duty of the Attorney General to procure evidence, and to attend the meetings of said Commissioners, and act on behalf of the State in all applications that shall be laid before said Board of Commissioners. [Approved March 31, 1841.]

STATE OF MAINE.

An additional Resolve in relation to the appointment of a Board of Commissioners to settle claims between certain individuals and the State.

RESOLVED, That the Resolves approved March 31, 1841, appointing the Justices of the District Court a Board of Commissioners to settle the claims between certain individuals and the State, shall become a law and take effect from and after the passage of this Resolve; that a majority of said Justices may constitute said Board, and be authorized and empowered to act in the premises, and that thirty days notice shall be given, instead of three months notice as required by said Resolves. [Approved April 16, 1841.]

The undersigned, the Commissioners named in the foregoing Resolves, hereby give notice that they will meet at the COURT HOUSE, in Bangor, on the TWELFTH DAY OF JULY NEXT, at ten o'clock in the forenoon, for the purpose of acting upon the claims, and performing the duties contemplated in said Resolves.

BANGOR WHIG.

MONDAY, JUNE 28, 1841.

☞ The throng of immigrants arriving in Canada suffer very much for want of shelter, many of them being obliged to remain on the wharves with no other protection than a blanket. A young woman became a mother in this situation a few days since.

☞ An English writer says, that in rope-making, white yarn prepared, is thirty-seven and a half per cent. stronger than the like weight of hemp worked with tar in the usual way, and of course recommends that the use of tar be abandoned.

☞ The Unitarian society are repairing and painting their church, and hold one service each Sabbath at the Court House. This reminds us that there is a wonderful lack of "white lead" on the exterior of three or four churches in this city, which we hope to see remedied the present season.

☞ Our Unitarian friends seem somewhat surprised at the se[illegible] asked by their Pastor yesterday morning, as it partook rather strongly of sentiments advocated recently in Boston by Rev. Mr. Parker, which occasioned some excitement in that city.

☞ A vast amount of bread stuffs, and produce, says the Albany Argus, are daily being shipped for New York, and Eastern ports, and large supplies by the canal continue to pour in. In the lumber trade, the shipments are, and ever have been, since the opening of the season, large, beyond precedent.

☞ The New York Express states that arrangements have been made for the payment of the interest on the debt of Illinois for the two past half years, and that sterling bills to meet the interest due in London on the first of July, were remitted by the Great Western.

☞ *The Ladies Companion* for July is received at Smith & Fenno's. It contains a beautiful engraving of "The Dean", and a great variety of excellent reading matter.

☞ The law term of the Supreme Judicial Court commences in this city to-morrow. The Judges have been sitting as Court, and hearing the arguments of Counsel since Friday, on account of the pressure of business.

☞ The City Council meet this afternoon at 2 o'clock.

☞ The lecture at the City Hall this evening will be on an interesting question in Phrenology.

☞ The British Queen will not come out again this season, in consequence of the great excitement caused in England by the non-appearance of the President.

☞ Counterfeit gold is in circulation in considerable quantities in the upper counties of Missouri.

☞ We learn that Mr. Ebenezer Adams of this city, has ready for the market, a fine lot of plump green peas raised in his garden.

☞ We had a smart rain all day on Saturday last, and a heavy shower on Sunday evening.

☞ During the months of April and May $493,640 worth of lead was received at St. Louis

☞ Lumbering, farming and mechanical business is generally good in this vicinity the present season.

QUESTIONS TO THE PHRENOLOGISTS.

Mr. Editor. It is well-known that there are many in our community, as well as everywhere else, who believe that Phrenology leads directly and inevitably to what is called the doctrine of *Necessity*, to *Fatalism*, and to *the Destruction of Man's responsibility*. This opinion is cherished by some of the best men in the nation. Perceiving that this is to be the subject of this evening's lecture at the City Hall, permit me to ask the lecturer two or three questions.

1. Does our organization influence our actions?

2. *Must* m[illegible] act according to the strength of his Phrenological developments?

3. If organization influences human actions, is there not in that case an end to the freedom of the will, of human responsibility?

4. Into what, in the opinion of Phrenologists, does free-will resolve itself? and in what consists man's responsibility?

An answer to these questions is respectfully solicited by many citizens.

And permit me to hope, Mr. Editor, that, as the subject of this evening's lecture is of deep interest to all, touching their welfare here and hereafter,—and as it will do much towards convincing us of the truth and usefulness of Phrenology, or confirming many in their convictions of its error and irreligious tendencies, permit me, I say, to hope that *all* our citizens will avail themselves of the present opportunity to hear this subject discussed. QUERIST.

PRACTICAL PHRENOLOGY DEFENDED.

Mr Editor.—An extract appeared in your paper of Friday, on the subject of Examination of Heads. Will you permit another correspondent to furnish you an extract presenting the opposite view of the subject.

In addition to the extract, permit me to say that other extracts from the most distinguished living writers on Phrenology might, and if need be, will be presented, urging the necessity of more and [illegible] attention to this [illegible] subject.

One word [illegible] light in [illegible] school of Phrenology will not be likely soon to cease from their labors in this department so long as they are sustained in their course by Gall, the founder of Phrenology, Combe, its greatest living master; De Ville of London; Caldwell of our own country, and last though not least, many distinguished members of the Phrenological Societies of Boston, New York, Philadelphia, Buffalo, &c., &c.

"Ever since the introduction of practical Phrenology into this country, in 1833, Phrenologists have entertained conflicting opinions as to its merits. Some maintain that the science is capable of being applied to the ascertainment of the *leading* traits of character *only*, contenting themselves with pointing out here and there predominant qualities, and with philosophizing upon its application to education, to mental philosophy, criticism, legislation, insanity, &c.—whilst others undertake to delineate character in *detail*, and attempt to read the feelings, talents, tendencies to conduct &c., of men, by means of their phrenological developments, including temperament, &c.

These philosophizing phrenologists maintain that this is impossible, on account of the modifying influences of the temperaments, combinations of faculties, education, habits, regimen, associations, religious and other opinions and professions, conditions in life, and other circumstances, which renders its application so uncertain, and its mistakes so numerous and palpable, that the credit of the science itself must suffer from such an attempt.

Now if this is really the case if phrenology is thus uncertain and Anti Baconian if its inferences are so often at variance with the characters of those examined, and, though excellent in theory, it is so uncertain in fact that its deductions cannot be depended upon; it is comparatively valueless its students may better close their books and cease their observations, its authors lay down their pens, and its advocates seal up their lips, lest it should pierce the hand that relies upon it. But from a daily and constant *personal* experience of many years we affirm that this is by no means the case. On the contrary, multitudes, in all parts of the Union, are living witnesses to the fact that we have described themselves and their friends even more accurately than could have been done by a long and intimate acquaintance with them, or even by the individuals themselves: and this too *without* a knowledge of these other conditions above specified, but from the *developments alone*.

Whenever he can well do so, the phrenologist by all means should ascertain these modifying influences: otherwise he is liable to mistake, not so much the *natural* characteristics or talents, as their *direction*, and *manner of exhibition*. But by knowing these influences, the almost unerring precision with which he can portray and even shade up the character and conduct of men, even *in detail*, is truly astonishing.

True, where the developments are only commonplace, little can be said, and that little not emphatically; but even here, phrenology is as true to the *real* character and talents as it is in those that are more striking. Of course these ordinary heads should *never* be produced as *test* cases.

That practical phrenology has indeed great difficulties to encounter, is readily admitted, but the question at issue is, whether they are really *insurmountable?* This we deny. True, it requires an amount of study and experience, an adaptation of faculties, and a power of mind demanded by no other study or occupation whatever. If the students of law and medicine must study constantly some ten years before they can be admitted to practice, what amount of preparation—of both original talent and of acquired knowledge, are required to fit one for the practice of a science far more complex and extensive than both law and medicine united? a science embracing within its vast range all the ever varying emotions and mental manifestations of the human mind all the never-ending phenomena of thought, feeling, opinion, and conduct appertaining to man! Let any one undertake to calculate, arithmetically, the number of changes that can be rung on the thirty seven faculties in all their different degrees of development, and he will find them to be inconceivably great, and the modifications produced by differences of temperament, health, associations, parentage, &c., double even this vast sum many times over.

A would-be-mathematico anti-phrenological writer in the Princeton Review for April, 1838, p. 313, employs the following knock-down argument against phrenology. He says

"Now the possible permutations of thirty five different quantities surpass our powers of conception; the number which expresses them contains forty one places of figures The difficulty of proving that any particular one out of this infinite number of possible permutations in the organs is actually marked upon the skull, is so great that we may, without presumption or discourtesy, pronounce it insurmountable. Ages upon ages of observation would be necessary to verify any particular hypothesis, and in the mean time phrenology is not entitled to assume at best any higher character than that of a lucky guess."

Now let us apply this same argument, "*mutatis mutandis*," to the other natural sciences. Will the mathematical professor, who penned this article please inform the world how many stars there are throughout the vast fields of space, and also ALL the motions and distances of each, together with *every thing* appertaining to each? You find the difficulty insurmountable, do you? Then, by parity of reasoning, astronomy is no science, and all its predictions as to the rising, setting, eclipses, distances, &c., &c. of the sun, moon, planets, and all the heavenly bodies all its predictions touching their courses, revolutions, motions, &c., are only so many "lucky guesses." Suppose all the phenomena of nature, all the chymical and philosophical, all the geological and botanical, and all the other changes, and conditions, and operations of nature, animate and inanimate, that ever have occurred, or are daily occurring, or ever will or can occur, with all their actual and possible modifications and conditions, were enumerated, think you that "the number which expresses them would be contained in" twice "forty one places of figures?" Would not all these not merely possible but actual "permutations" of nature, equally with those of the phrenological organs, "surpass our powers of conception?" And if so, are not chymistry and natural philosophy, geology and natural history, together with all the established laws and operations of nature, equally with phrenology, and for the very same reason too, "entitled to assume a higher character than that of lucky guesses?" The plain fact is, that all God's works are [illegible] All man is finite, and is therefore incapable of comprehending the whole of any one branch of them. Your argument would dispense every science, rendering all [illegible] of astronomy, of chymistry, of natural philosophy, of anthropology, of phrenology, each and all *equally* merely "lucky guesses" and as [illegible] true of phrenology than it is of every [illegible] of God.

Will this same mathematical professor please inform us how many different shades and phases of ideas and emotions, of sentiments and desires of opinion and practice, of likes and dislikes of [illegible] a single son or daughter of Adam is capable of experiencing, actually do experience, in all the changes in regard to family, friends, property, objects of desire and pursuit, and ways and means of effecting his ends throughout a long life of three score years and ten? How many emotions throb through his heart? how many thoughts flit across his breast? how many desires and feelings arise in his mind, both waking, and walking, and talking, and sleeping? Hundreds of millions, to say the least. Another, has a set of ideas, opinions, likes, repugnances, feelings, &c., entirely different throughout.

Now, with these data, for the basis of your mathematical problem, will you decipher the sum total of ALL the different feelings and mental manifestations of every nation and kindred and tongue under heaven that have ever existed, or now exist, or may live hereafter, and then subtract from it your forty one places of figures, and tell the world the remainder. Tell us how many more changes are capable of being rung on the thirty seven faculties than actually is, and has been, and can be rung upon the chords of the human heart. The fact is, your estimate falls far short of both the phrenological conditions and the mental manifestations, thereby forming an argument *for* phrenology instead of against it. How vastly more philosophical the phrenological hypothesis! that this almost infinitude of mental phenomena should be exercised through thirty seven media, compounded with, and modified by each other, than through your own boasted single medium? Phrenology is bound to *make provision* for all these phenomena, even though the phrenologist may be unable to *observe all* the conditions on which they depend.

FOREIGN MISSIONS.

It can hardly have escaped the observation of the People that, while scarcely a week had elapsed after Gen. Jackson and Mr. Van Buren's accession to power before the heads of nearly all our Foreign Ministers Gen. Harrison's among the number were brought to the block, yet since Gen. Harrison's accession to the Presidency now nearly four months not a single Embassador, nor a Charge we believe not even a Consul has been superseded! Nearly every one of those now in place were appointed by Jackson and Van Buren from among their own partisans some of them the most zealous and efficient in their ranks yet they are allowed to retain the most honorable, lucrative, important and confidential stations under a Whig Executive for months. What a dreadful Reign of Terror this is! What wonder that Messrs Buchanan and Walterson are astonished at the novel enormity of Whig Proscription, and call for official statements of the *reasons?* We trust no obstacle will be interposed to the call. Let them have "reasons as plenty as blackberries"

Doubtless some changes in the Foreign agents of the Government would have been made ere this, had Congress been in session The President has very properly hesitated to make changes in those posts without the concurrence of the Senate. But the bar is now removed, and it is understood that several changes will soon be made among them the following:

Hon. John Sergent of Pennsylvania will go Embassador to England, in place of Hon. Andrew Stevenson, who has expressed a desire to be relieved.

Hon. Daniel Jenifer of Maryland, (late M. C.) will go Embassador to Austria, in place of Hon. H. A. Muhlenberg, who has already returned.

Col. Chas. S. Todd of Kentucky (Aid of Gen. Harrison at the battle of the Thames, afterward Inspector Gen. of the U. S. Army) Embassador to Spain; mission now vacant.

Some minor Diplomatic appointments will likewise be made; but it is understood that Gen. Cass will be retained as Embassador to France, and Mr. Wheaton ditto to Prussia. We hear nothing definite of the Russian Embassy; but it is presumed that our worthy ex-Representative, G. C. Cambreleng, will not hold his office under a Whig President one moment longer than considerations of Public duty may constrain him to do so.

We hear for [illegible] that Judge E. M. Huntington of Indiana will soon be appointed Commissioner of the General Land Office, *vice* T. J. Whitcomb, a peddler of the Extra Globe. Also Philip R Fendall, District Attorney for the District of Columbia, vice Francis S. Key, Esq We regret that this last change is necessary. The author of the star-mangled banner ought to be a Whig *N. Y. Tribune*

CONGRESS.

TUESDAY, June 22.

In Senate, Mr. Tallmadge presented petitions of citizens of New York and Plattsburg for a General Bankrupt Law.

Mr. Huntington presented resolutions of the Legislature of Connecticut in favor of the Executive term, for discriminating duties, for the distribution of proceeds of the public lands, for the repeal of the Sub-Treasury, and for a National Bank. Laid on the table, and ordered to be printed.

Mr. Allen presented resolutions of a meeting of the citizens of Cincinnati, opposing a National Bank.

Mr Allen made some remarks concurring with the views of the resolutions, and stating that was a bill for the establishment of a Bank passed, he should immediately bring forward a bill to repeal it, which he should press upon the Senate until it was effected. After some debate by Mr Clay, the resolutions were laid on the table.

The bill to revive and extend to the 4th of July, 1844, the Charters of certain banks of the District of Columbia was passed.

The bill of appropriation for the present Session passed the Senate.

In the House, on motion of Mr. Randolph, 10,000 extra copies of the Report of Secretary of the Treasury were ordered printed.

Mr. Cost Johnson, Chairman of the Committee of Public Lands, reported a bill to appropriate for a limited time the proceeds of the public lands, and granting lands to certain states. Referred to the committee of the Whole on the state of the Union, and ordered printed.

Mr. Pope moved to reconsider the vote on the motion passed yesterday to refer to the committee of Ways and Means the bill for the repeal of the Sub Treasury. After a debate of some length and interest, the vote was reconsidered, and the bill referred to the Select Committee on the Currency.

A Message was received from the President of the U. States, transmitting correspondence between the President and the committee of of Citizens of Cincinnati, to remove the body of Harrison to North Bend for interment.

WEDNESDAY, June 23.

In the Senate, Mr. Tappan presented a resolution calling on the Secretary of the Senate for the details of the contingent expenses of the Senate.

Mr. Clay [illegible] would exhibit them at any time. He had himself been struck with the magnitude of the charges of printing, and this had been reduced from nineteen to one and to [illegible] thousand dollars. The average charge for printing had been about $50,000 dollars, and it now had been reduced to about nine thousand, estimating the length of the session at two and a half months. He stated that he trusted there would be great reductions in this item hereafter. He pledged himself to go for great reforms hereafter, and called on the Secretary to economize and thus prevent the interference of the Senate.

Mr. Tappan withdrew his call

The bill to revive and extend the charters of certain Banks in the District of Columbia, was read a third time.

Mr. Morehead moved to recommit the bill for the purpose of modifying that provision which prohibits the Banks from issuing any paper of suspended Banks With the prohibitory clause introduced in this bill by the amendment of the Senator from Missouri, the operations of these banks would be rendered worse than useless to the people of the District. He moved to recommit the bill with instructions to strike out the objectionable clauses.

A long debate ensued on this motion which was finally decided in the affirmative ayes 25, noes 24.

In the House, Mr. Adams offered the following resolution.

Resolved, That so much of the Message of the President of the [illegible] African Slave Trade, be referred to the committee on Naval A[illegible] to the House such measures as the highest considerations of public honor, as well as the suppression of the trade.

Mr. A. V. Brown offered an amendment of the Constitution, in effect that no individual can be eligible to the office of President for more than four years provided that such a contingency as has lately happened, shall not operate on the living incumbent Laid over.

Mr. Cave Johnson offered a resolution calling on the Heads of Departments for a list of the individuals dismissed from office, and also a list of those put in their places Laid over.

Mr. Pendleton offered a resolution instructing the Select Committee on the currency to report a resolution that it is the sense of this House that a General Bankrupt law should be enacted. Agreed to.

Mr Randolph called up a memorial presented yesterday from certain citizens in New Jersey, in relation to the revenue on Iron, and the manufacture of Iron, and moved the memorial be printed.

On this motion a very unexpected and animated debate sprung up, in which many members participated. But the House adjourned without taking the question.

The State of Arkansas have made provision for paying their July interest This State has always been punctual in meeting its engagements.

PHRENOLOGY.

The next Lecture will be given at the CITY HALL THIS EVENING at a quarter past 8 o'clock.

Adams's Venus Water.

THE true Remedy! the Sovereign Restorative!! the grand producer!!! The subscriber informs the public that after FOURTEEN YEARS of study, one of which have been years of immense labor and difficulty, he has discovered the only true remedy against the loss, the sovereign restorative in case of a deficiency, and the grand producer of that most beautiful ornament of the human form—the HAIR!

That it may be known that this Venus Water is an invaluable article, I will state that in the first years of my labors upon it, its application to the head for two consecutive seasons was necessary in order to establish a good growth of hair, but now only one season is required so successful have been my improvements upon it! And I have the proud satisfaction of knowing that in the City of Bangor alone—*three hundred and forty heads* which were once bald, can, by the heavy growth of hair upon them, bear witness to the wonderful effects which this Venus Water has produced within eighteen months!

I will add a few, of the certificates almost innumerable, which have been given me by individuals who have derived benefit from this Water.

Mr. T. D. ADAMS. Having availed myself of the extraordinary benefits of your Venus Water, I feel it my duty to the public, as well as to yourself, to submit for their perusal a plain statement of the facts in my case. I had been entirely bald for seven years, and had lost my eye brows, during which time I tried the remedies of three physicians without any benefit.

In reading over the advertisement of your celebrated Venus Water, I concluded to try it, and now am the proprietor of a fine head of hair and a beautiful pair of eye-brows

MISS ELIZA WORTHINGTON.
Bangor, May 8, 1841.

This is to certify, that I have used Mr Adams' Venus Water for baldness of the head, and that it has restored me a good head of hair, where before using it the hair was entirely gone. I also have used other medicines which have started the hair but it would come out again. But the Venus Water has restored it so that it is as strong and stronger than before I first lost it. And to all those who are troubled with baldness, I would say be sure and call on Thomas D. Adams, and try it immediately, and you will have your hair growing again forthwith.
ARTEMAS J. EGERY.
Bangor, May 14, 1841.

This may certify, that for the last six months I have used T. D Adams' Venus Water, and have the satisfaction to say that the top of my head, which for a long time was bald, is now entirely covered with a good growth of hair.
EDMUND HOLT.
Bangor, February 25, 1841.

I hereby certify that for the last two or three years my head has been bald, and that during that period, I have used a great number of applications recommended for their efficacy in restoring the hair, from which I have never received any benefit, some even having proved injurious; until the past summer, I made use of Thomas D. Adams' Venus Water, which has entirely exceeded my expectations and covered my head with a strong growth of hair.
HANNAH PALMER.
Bangor, May 13, 1837.

This may certify that the hair upon the top of my head, being nearly gone and the remainder fast dropping off daily, I was induced by Mr. T. D Adams to try his Venus Water, and during the last year he has made frequent applications of it to my head. I have now a considerable growth of new hair, produced, as I suppose, by the use of his remedy.
C. HARRIS.
Bangor, Feb. 3, 1841.

This may certify that I called on Mr T. D Adams in May, 1836, I used his Venus Water for three months and it has produced as much hair as I wish to have on my head.
Bangor, Sept. 1837. NANCY SMITH.

This may certify that my head was entirely bald, and by the use of T. D. Adams' Venus Water for three months my hair has been restored.
Bangor, Feb. 15, 1841. CALEB B HOLMES.

I have used Mr. Adams's Venus Water, for the growth of the hair for about six months, and am happy to say that it has answered every purpose in producing a good head of hair and prevent the hair from coming out by combing.
Bangor, Feb. 8, 1841. MARY JONES.

This may certify that for the last six months I have used Adams' Venus Water, and have the satisfaction to say that the top of my head which for a long time was bald is now entirely covered with a good growth of hair.
Bangor, Feb. 12, 1841. WM FROST

This may certify that for the last twenty years the top of my head had been bald, but now is well covered with a good growth of hair, I used the Venus Water for four months.
Bangor, Feb. 15, 1841. E. K. WARREN.

This certifies that I have used a preparation made by Mr. Thos. D. Adams of this city, to restore hair to the head, after it had fallen off, and having derived much benefit from it, I would cheerfully recommend its use to others.
Bangor, Feb. 16, 1841. A. HOLTON.

The Venus Water is for sale by the proprietor at his office over the Post Office in this city.

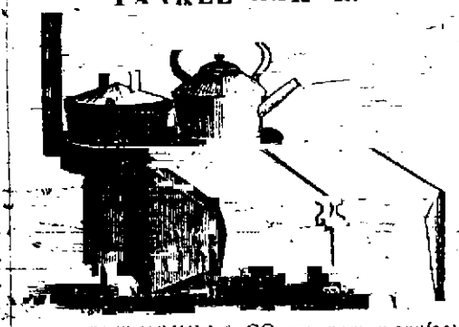
YANKEE BAKER.



ALBERT NOYES & CO. are now manufacturing the celebrated YANKEE BAKER, which for convenience and economy in fuel, is unrivalled by any other article. One cent's worth of Charcoal is sufficient to keep it in operation one day. As an article for summer use, it will be found indispensable, as the heat is all kept within the Baker, and the baking is done by reflection from the cylinder thereby enabling one to do cooking without the addition of a great fire either in a stove or fire place. VALUABLE PROPERTY AT AUCTION.

The following described real estate with the buildings thereon, situate in Bangor, near the centre of business, will be sold at public auction, on THURSDAY, the FIFTEENTH DAY OF JULY NEXT, at three o'clock in the afternoon, on the premises, viz:

A lot of land and buildings thereon situate on the corner of Pine and State Sts. and measuring on Pine street 105 feet, and on State street 26 feet more or less, being the easterly brick tenement in a block of two houses, and the same now occupied by Wm. B. Reed together with a four feet passage way, leading from the southerly end of said lot westerly 50 feet.

A lot of land with the buildings thereon, situate on Centre street, near R. Prince's, and measuring thereon 50 feet and running back 112 feet.

A lot of land on or near Hammond street, beginning at a stake, 20 feet from said street, and two rods distant from land formerly owned by heirs of Isaac Davenport; thence running northwesterly parallel with said Davenport's line 110 ft.; thence northeasterly at right angles with the last line, 124 ft. to a stake; thence southeasterly 12 ft. 6 inches to a stake; thence southwesterly, taking one half the barn, 20 ft.; thence southeasterly in front of the barn to the centre of the passage way 5 ft.; thence southerly on the centre line of said passage way 10 ft. in width, about 112 ft. to the bound begun at, reserving the right to J. T. Harvey and those claiming under him of passing and repassing in said passage way, which is to be kept open, together with a like right of passing to and from the well and using the water therefrom, he or they bearing one half the expense of keeping said well in repair, being the same premises conveyed by Daniel Kenney.

A lot of land, commencing on the road leading from Bangor to Levant, and at the northwesternmost corner of J. Finson's land; thence running south 61 and a half deg. west 104 rods to said Finson's land; thence north 36 deg. west, 40 rods to a stake; thence north 61, and one half deg. east, 108 rods to said county road; thence south 30 deg. east forty rods to bound begun at, containing 26 acres.

Also the lot of land and dwelling house, southerly of and adjoining the first described site, beginning on the west line of Pine st. where it intersects an extended line of the northerly wall of the wooden tenement, on the south part of said lot; thence running westerly by said north wall and in the line of the same 72 ft.; thence on a line parallel with said west line of Pine st. about 26 ft. in for 113; thence on said lot 72 ft. to a line at a stake on said street 36 feet first bound; and the same now occupied by Mr. Wheeler.

A lot of land situate on Exchange and Harlow sts. bounded by said streets, and East Market Square, and the same more particularly described in deeds from Nathaniel Harlow and Jas. B. Fiske to Thomas Drew, recorded in Penobscot Registry, vol. 26, pages 613 and 614 and vol. 31, page 566 subject to a mortgage from said Drew to Bangor Insurance Company, recorded vol. 46, page 152 and said mortgage and the note secured thereby will be sold as aforesaid.

The aforesaid property being the same conveyed to the Suffolk Bank by deed recorded in the Penobscot Registry, vol. 114, page 598. Terms Cash For further particulars respecting the same, and the title to the purchaser, apply to

CONSUMPTION AND LIVER COMPLAINT.

BALSOM OF LIVERWORT.

DR. TAYLOR'S BALSOM of LIVERWORT has been used successfully for eight years in the Cure of these Diseases. ☞ Remember! the original and genuine is made ONLY at 375 Bowery, New York. ALL others are spurious and unauthorized.

CONSUMPTION & LIVER COMPLAINT.

As a general remedy for these diseases, I am fully satisfied from long experience, there is no medicine equal to Dr. Taylor's Balsom of Liverwort. Being purely vegetable, it can be used with the utmost safety by all persons in every condition. It cleanses the lungs by expectoration, relieves difficult breathing, and heals the chest. There can be no question but it is the best medicine in a certain way for chronic coughs and colds. I have used it for four years in my practice, and always with success. A. F. RODGERS, M. D.

☞ SPITTING OF BLOOD. This disease consists of a discharge of blood, often frothy, from the mouth, brought up with walking and coughing, and is usually accompanied with difficulty of breathing, and some pain in the chest. Sometimes it is preceded by an oppression at the chest, a dry tickling cough and slight shooting pains. This disease is always more or less dangerous. The great danger is that these symptoms may terminate in consumption, and immediate remedies can alone save this end. But Dr. Taylor's Balsom of Liverwort is a sure remedy, and to show its unparalleled success, certificates of cures from 424 citizens, and many physicians, will be published in a few days.

☞ NERVOUS DISEASES AND WEAKNESS. Dr. Taylor's Balsom of Liverwort made at 375 Bowery, is assuredly an excellent remedy for these diseases. My wife has been more or less ill for ten years. She was extremely nervous and at times so weak that she could not attend to her domestic duties. By the use of this medicine, her strength is wholly restored, and she is as healthy as I can wish her to be. My address is at Dr. Taylor's office.

CURE OF CONSUMPTION. Mrs Martin, a worthy member of my congregation, was taken ill some time since with a cold, pain in the breast and some difficulty of breathing, and in a few days thereafter she had a violent cough and violent pain in the sides, which no medicine would relieve. She continued in this way for a long time under the medical care of Dr Rea, but finally became consumptive, and was evidently near the end of her earthly sufferings, when her brother persuaded her to try Dr. Taylor's Balsam of Liverwort. When she commenced this medicine it did not seem to agree with her for a few days, but by lessening the dose she found it answered admirably—it relieved her cough and her difficulty of breathing instantly, and we had the pleasure of witnessing her rapid recovery to health.

Rev. WM. SMYTHE.

THE MASSACHUSETTS CHARITABLE MECHANIC ASSOCIATION.

ANNOUNCE to the public that their THIRD EXHIBITION for the encouragement of Manufactures and the Mechanic Arts, will be opened at Quincy Hall, in the city of Boston, commencing on MONDAY, SEPT. 20, of the present year.

The officers and trustees for the year 1841, having been vested by the association with full powers to make the necessary arrangements, respectfully invite Manufacturers, Mechanics and Artists, the ingenious and scientific, to offer for Exhibition and Premium articles in every department of Art, Science, and Taste; choice specimens of native skill and ingenuity, useful labor-saving machines, implements of husbandry, and new models of machinery in all their variety: in the every species of article for any useful or ornamental purpose, made of wood, metal, stone, clay, or material. The products of the loom in silk, cotton, wool, hemp, flax or hair, and all articles devised by female ingenuity, or wrought by their industry, will have a proper place in the exhibition.

Medals (of gold or silver) or Diplomas will be awarded for all articles of merit deemed worthy of such distinction; and the Managers pledge themselves that strict impartiality will be observed in their distribution and that competent judges shall be appointed, who in no case will be competitors for premiums on articles exhibited.

In the fullest confidence that this notice will meet the early attention of the Manufacturers and Mechanics of Massachusetts, as well as of our sister States, (whom we shall be proud to meet in this glorious field of competition) the Managers will make such arrangements as shall insure a fair and full opportunity for a display of every article which may be entered on or before the 15th of September, and although they will not exclude such articles as may be afterwards offered, yet they cannot promise them so conspicuous a place in the Exhibition as those will have which are earlier entered.

Articles intended for Exhibition must be delivered to the Superintendent at Quincy Hall, on or before Wednesday Sept. 15th.

Articles may be offered by Apprentices, (by permission of their Masters, who, if required, must give their names, ages, and the time they have served as apprentices) which will be registered, but will be judged as the productions of Apprentices.

Arrangements will be made to exhibit, in operation, any working models that may be offered, which will render the Exhibition useful and interesting.

Communications relative to the Exhibition may be addressed to WILLIAM WASHBURN, Superintendent, or HENRY W. DUTTON, Secretary, 10 & 12 Exchange street, (post paid.)

☞ Important Caution. ☜

It is a singular fact and one much to be regretted, that valuable medicines, as soon as they become popular, and have received the test and approval of a discriminating public, are sure to be counterfeited, and thus a bad and spurious article is immediately palmed upon the unsuspecting as the genuine. This has been notoriously the case with all popular tried and truly valuable medicines for years past, and will probably continue to be the case for years to come.

The base and contemptible counterfeiter in this way meanly takes advantage of all the efforts and the advertising used by the proprietors of the genuine article to get their medicines into use and deserved popularity. It is therefore not less the duty than it contributes to the safety of every honest individual in the community, to expose, frown down, and forever after distrust all heartless ingrates, who thus irresponsibly trifle with health and life.

THEREFORE TAKE NOTICE.

There is a person by the name of J. B. ROCHEFORT, now engaged in selling a Pill done up in boxes in exact and perfect imitation of the genuine INDIAN VEGETABLE PILLS, with the omission of only one word on the boxes viz. WRIGHT. The Pills sold by this Rochefort are evidently intended as a fraud and imposition upon the community, or they would not have been done up in such exact imitation of the genuine. This person is tall and blustering, with a great Theatrical swagger. He was recently known as a very poor player in Baltimore, under the musical cognomen of Jim Brown, and is about twenty five years of age. It is almost beyond a doubt that he is supplied with the Pills from a Druggist firm in this city, who have been heretofore notoriously connected with counterfeit medicines. As soon as proof is obtained, the fountain head of this nefarious business will be exposed, that the community may shun them as they would a serpent.

IN THE MEAN TIME THE PUBLIC ARE CAUTIONED

against buying WRIGHT'S Indian Vegetable Pills of any one who does not exhibit a certificate of agency signed by the agent for the New England States, and bearing date since January, 1840. Also take particular notice that the following wording is on the Boxes—

WRIGHTS *Indian Vegetable Pills* (Indian Purgative) of the North American College of Health.

THE INDIAN VEGETABLE PILLS are a certain cure for disease in its every variety of form, because they thoroughly cleanse the stomach and bowels, induce a proper discharge by the lungs, skin and kidney, and stimulate the blood to purify itself. In other words they open all the natural drains, and leave NATURE (THE GRAND PHYSICIAN) free to drive disease from the body. The above outlets, or drains, are the common sewers of the body, through which all morbid and corrupt humors (the cause of disease) are carried off and so long as they are all kept open, and discharge freely their allotted portions of impurity the body will continue in health; but when from eating improper food, breathing impure air, sudden transitions from heat to cold, over exaustion, or any other cause, the bowels become costive, the pores of the skin become closed or the kidneys fail to perform their functions properly, the impurities which should be drained from the body by those outlets will be retained, and continue to accumulate until the body becomes literally loaded with disease.

The above pills may be taken at all times, and under all circumstances, with perfect safety. They suit all complaints and all ages, and are as natural to the human constitution as food, consequently they can never injure even the most delicate. Like our food they are digestible; therefore they enter into the circulation, and impart an energy to the blood which enables it to flow with freedom quite to the extremities, and consequently to keep the pores of the skin open. They are true and perfect purifiers of the blood; because they drain all corrupt humors from that life giving fluid. They impart strength and vigor to the whole system, and their effects are always beneficial; because they only remove those humors which are opposed to health. They aid and improve digestion, and sound sleep follows their use; because they cleanse the stomach and bowels of their slimy humors which not only irritate and excite the nervous system, but paralize and weaken the digestive organs. In short they possess all the good properties that can be claimed for any medicine; and what is very remarkable, it is utterly impossible to use them without benefit.

Price 25 cents per Box, with full Directions.

☞ Office and General Depot for the New England States, No 198 TREMONT STREET, near Court street, Boston.

☞ The Regular appointed Agents can receive their supplies of the above popular Pills, as heretofore, from the ONLY OFFICE and GENERAL DEPOT for the New England States, 198 Tremont street Boston.

☞ Pedlers or travelling Agents are not allowed to sell the Genuine Indian Vegetable Pills, therefore never purchase from them, for if you do you will be sure to obtain a DANGEROUS and Counterfeit article.

CONSUMPTION.

DR. BALL'S BALSAM of Hoarhound, Liverwort, and Pleurisy Root, FOR CONSUMPTION AND LIVER COMPLAINT, Colds, Coughs, Spitting of Blood, Catarrh, Asthma, Difficulty of Breathing, Pain in the Side, Palpitation of the Heart, Oppression and Soreness of the Chest, Pleurisy, Hectic Fever, Night Sweats, Difficult and Profuse Expectoration, and all affections of the Chest, Lungs and Liver.

The Hoarhound, Liverwort, and Pleurisy Root have for centuries been celebrated in the cure of diseases of the Lungs and Liver.

Dr. B. D. Allen, after a series of experiments, has been able to extract from these medical herbs a balsam, which exerts almost wonderful effect in curing Consumption and Liver Complaint, and all other diseases of the Lungs and Chest. So great has become the reputation of Dr. Allen's Balsam that it is now used in the New York, Philadelphia and Baltimore Hospitals, and in the private practice of our most eminent medical men.

For children labouring under Inflammation of the Lungs, Colds, Coughs, Croup, Quinsy, and Sore Throat this Balsam is of great importance. The number of deaths among children from these diseases is truly alarming. If parents wish to save the lives of their children, and themselves much trouble anxiety, and expense, let them procure Dr. B. D. Allen's Balsam; and whenever a child has taken cold, has any fever, cough, or hoarseness, give a teaspoonful of this medicine, and repeat it if necessary; even one teaspoonful will often effect an entire cure. During the winter of 1838, many of one thousand families employed this remedy in the city of New York. The consequence was, that the number of deaths among children was reduced to less than one half the usual number, as may be seen by the city inspector's report of deaths.

In order to give the reader some idea of the efficacy of this Balsam, and how extensively it is used, we here introduce the monthly report of the cures it performed in the month of May, 1839, as furnished us by the agent, and published in the New York Sun.

Monthly Report of the cures performed by Dr. B. D. Allen's Balsam of Hoarhound, Liverwort and Pleurisy Root during the month of May. It has cured and completed the cure of

Consumption in	112	persons
Liver complaint	102	"
Dyspepsia	196	"
Asthma	91	"
Palpitation of the Heart	67	"
Raising Blood	66	"
Total	1658	

"The number of Colds and Coughs cured by this medicine are too numerous to report."

☞ CAUTION. Purchasers will see unless it has a Certificate of Copyright on wrapper and label, and the written signature of B. D. ALLEN, M. D.

The following certificates show the high estimation in which Dr. Allen's Balsam is held.

OPINIONS OF THE MEDICAL FACULTY.

At a meeting of the Medical Society of Washington County, the following Resolution was unanimously passed:

Resolved: That from a knowledge of the composition of Dr. Allen's Balsam of Hoarhound, Liverwort and Pleurisy Root, and the most astonishing effects we have seen it have upon our patients, it is our decided and unanimous opinion that it will cure Consumption and Liver complaint and we do strongly recommend it to the faculty and the public generally.

JOHN SMITH, M. D. President.
DAVID P. HALE, M. D. Sec'y.

From J. L. Rogers, M. D. N. Y. City.

Dr B. D. ALLEN. Dear Sir—For a year past I have been in the habit of prescribing your Balsam of Hoarhound, Liverwort and Pleurisy Root to my patients in private practice. I have also used it in the Hospital. I find it a remedy of great efficacy in affections of the Lungs and Liver. In cases of Consumption, Cough, Asthma, and Bronchitis, I have found it a very efficacious, and I believe it is prescribed very generally by the profession.

I have the honor to be, yours, &c.

From Rev. D. Scott, of New York.

Dr. B. D. ALLEN. Dear Sir—I am most happy to inform you that your Balsam of Hoarhound, Liverwort and Pleurisy Root, has cured me of the Liver complaint, a disease under which I had laboured upwards of six years. I have recommended it to several of my friends when afflicted with the same malady, and in every instance has it been successful. Hoping that God may spare your life for usefulness, I am respectfully yours,

NOTICE OF FORECLOSURE.

THE subscriber, of Bangor, county of Penobscot, and State of Maine, hereby gives public notice, that Robert Boyd and Lendal G. S. Boyd, both of Portland, in the county of Cumberland, by their deed of mortgage dated Sept. 21st, 1835, and duly recorded in the Penobscot Registry of Deeds, book 68, page 253, conveyed to the subscriber one undivided quarter part of a certain piece or parcel of land situate in Bangor, aforesaid, on the West side of Kenduskeag River, and described as follows, viz: Beginning in a line of the Avenue road, so called, in a line of land owned by William D. Williamson, thence westerly in said line to the head of the lot on a stake; thence at right angles to the Carmel road, so called, thence by the line of said road to a stone with a hole in it; thence at right angles in a line of land owned by William Emerson to the Avenue road aforesaid; thence in a line of said road to the first mentioned bound, being one fourth part of the same land named in said Wyatt's Deed to said R. and L. G. S. Boyd and others, dated the day and year aforesaid, which said fourth part the said R. and L. G. S. Boyd re conveyed to me to secure the payment of certain notes of hand mentioned in said mortgage to which reference is had.

Also, that James T. Hobart, now or lately of Boston, county of Suffolk, and State of Massachusetts, by his deed of mortgage, dated Sept. 21st, 1835, and duly recorded in the Penobscot Registry of Deeds, book 68, page 254, conveyed to the subscriber one undivided eighth part of a certain tract of land situated in said Bangor, being the same conveyed by the subscriber to the said Hobart by deed bearing date the day and year aforesaid, and reconveyed to me to secure the payment of certain notes of hand mentioned in said mortgage, to which reference is had; and whereas the conditions of each of said mortgages have been broken by reason of the nonpayment of the sums expressed therein, the subscriber therefore claims to foreclose said mortgages and gives this public notice of his claim and foreclosure in pursuance of the statute.

Brown, Boston." Also the Directions are signed. For genuine observe the stamp, and receive no other. Price 19 cts for 4 oz. The great increase of sales this season is sufficient to satisfy the whole community of its superiority. As an evidence read Certificate.

I hereby certify that in the month of October, 1839, I manufactured from a medicated decoction furnished by Wm. Brown, Druggist 481 Washington Street, Boston, 524 lbs of his Compound Boneset Candy. Same month this year, 1840, I manufactured for him 2283¾ lbs, showing an increase to satisfy all that the article is truly all the go. Six years since in the same month I made but 50 lbs. It is now ten years to my knowledge that this Candy has been made by Mr. Brown.
